PROFESSIONAL SUMMARY

Full-Stack Developer skilled in modern web development using **Next.js, React, Python, and Django**. Experienced in architecting secure REST APIs, designing dynamic user interfaces, and managing production deployments on **Linux VPS infrastructure**. Strong analytical problem-solver dedicated to building scalable digital solutions and writing secure, production-ready code.

TECHNICAL SKILLS

- **Backend Development:** Python, Django, Django REST Framework, PostgreSQL, SQLite, Celery, Redis
- **Frontend Development:** JavaScript, TypeScript, Next.js, React, HTML5, CSS3, Tailwind CSS
- **Tools & DevOps:** Git, GitHub, Docker, RESTful APIs, Linux/Bash, Postman, CI/CD Basics

---

EDUCATION & CERTIFICATIONS

B.Sc. in Pure and Industrial Chemistry | First Class Honors

University of Nigeria, Nsukka (UNN) — Graduated 2024

- *Key Highlights:* Graduated with First Class Honors; strong analytical, quantitative, and computational methodology background.

Cybersecurity Training Program

TSAcademy — In Progress (2026)

- *Focus Areas:* Network Security, Web Application Vulnerabilities, Penetration Testing Basics, Secure Software Development.

KEY PROJECTS

Secure Full-Stack Web Application (Django & Next.js)

- **Role:** Lead Developer
- Architected and deployed a full-stack platform featuring robust role-based access control (RBAC), JWT authentication, and asynchronous data processing.
- Implemented secure file processing and input sanitization to prevent common vulnerabilities like SQL Injection and Cross-Site Scripting (XSS).
- Designed clean REST API contracts and integrated background task queues using Celery and Redis.

WORK & PRACTICAL EXPERIENCE

Full-Stack Python Developer | *Freelance / Independent Projects*

Jan 2024 – Present

- Developed and maintained full-stack web applications for clients utilizing Python, Django REST Framework, and React/Next.js.
- Optimized database queries, migrations, and serializers to ensure high throughput and low-latency API responses.
